Notes to Condensed Interim Consolidated Financial Statements

Three-month and nine-month periods ended September 30, 2019 and 2018

(in Canadian dollars)

1. Reporting entity and nature of operations:

Cerro de Pasco Resources Inc. and its subsidiaries (hereafter the "Company" or "Cerro de Pasco" or "CDPR") is engaged in the acquisition and exploration of mineral properties.

Cerro de Pasco Resources Inc. is a company domiciled in Canada. The Company was incorporated on June 6, 2003 under the *Business Corporations Act (Alberta)*. On January 28, 2014, the Company changed to the *Canada Business Corporations Act*.

On November 9, 2017, Genius Properties Ltd. entered into a merger agreement with Cerro de Pasco Resources S.A., whereby Genius Properties Ltd. agreed to acquire all of the issued and outstanding shares of Cerro de Pasco Resources S.A. (the "Transaction"). The Transaction closed on October 4, 2018 in exchange of the issuance of common shares of Genius Properties Ltd.

Following the closing of the Transaction, Genius Properties Ltd. changed its name to Cerro de Pasco Resources Inc. and is trading on the Canadian Securities Exchange ("CSE") under symbol "CDPR". In addition, on August 31, 2018, in order to complete the transaction and comply with Peru's legal and tax rules, Cerro de Pasco Resources S.A transferred its net asset to a new entity named Cerro de Pasco Resources Sucursal del Perú which is fully owned by the Company after Transaction.

The Company's head office, which is also the main establishment is located at 22 Lafleur Avenue North, suite 203, Saint-Sauveur, Québec, Canada J0R 1R0 and its web site is www.pascoresources.com.

The Company is in pre-operative stage. Operational activities are estimated to start as projects reach the level of economic feasibility and have the environmental impact study approved by the competent authority.

2. Going concern:

The accompanying consolidated financial statements have been prepared on the basis of the on going concern assumption meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period.

Management is aware, in making its assessment, of material uncertainties related to events and conditions that may cast a significant doubt on the Company's ability to continue as a going concern and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

For the nine-month period ended September 30, 2019, the Company recorded a net loss of \$714,829 (\$491,534 in 2018) and has an accumulated deficit of \$21,402,853 as at September 30, 2019 (\$17,413,308 as at December 31, 2018). Besides the usual needs for working capital, the Company must obtain funds to enable it to meet the timelines of its exploration programs and to pay its overhead and administrative costs. As at September 30, 2019, the Company had a working capital of \$1,264,795 (a working capital of \$1,063,885 as at December 31, 2018) consisting of cash and cash equivalents of \$1,147,065 (\$1,364,140 as at December 31, 2018). Management believes that these funds will not be sufficient to meet the obligations and liabilities of the Company. These uncertainties cast significant doubt regarding the Company's ability to continue as a going concern. Any funding shortfall may be met in the future in a number of ways, including but not limited to, the issuance of new equity instruments. Given that the Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, the Company has not yet generated income nor cash flows from its operations. The recovery of the cost of exploration and evaluation assets as well as other tangible and intangible assets, is subject to certain conditions: the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to continue the exploration, evaluation, development, construction and ultimately disposal of these assets. During the nine-month period ended September 30, 2019, the Company has raised \$2,668,332 from warrants exercised and private placements consisting of common shares to fund exploration works and working capital. While management has been successful in raising financing in the past, there is no assurance that it will succeed in obtaining additional financing in the future.

3. Basis of preparation:

3.1 Statement of compliance:

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standard Board ("IASB") in accordance with IAS 34, Interim Financial Reporting.

Certain information, in particular the accompanying notes, normally included in the audited annual consolidated financial statements prepared in accordance with IFRS has been omitted or condensed. Accordingly, these unaudited condensed interim consolidated financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual consolidated financial statements of the Company and the notes thereto for the year ended December 31, 2018.

3. Basis of preparation (continued):

3.2 Basis of measurement:

The condensed interim consolidated financial statements have been prepared on the historical cost basis except for where IFRS requires recognition at fair value.

3.3 Basis of consolidation:

A subsidiary is an entity over which the Company has control. The Company controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is acquired and de-consolidated from the date that control ceases.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The subsidiaries have a reporting date of December 31. The Company attributes total comprehensive loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests. All intra-group transactions and balances are eliminated in full on consolidation.

Subsidiary	Status	Jurisdiction of Incorporation	% of Ownership
Cerro de Pasco Resources Sucursal del Perú	Active	Peru	100%
Subsidiary 1 - Zippler Inc. ("Zippler")	Inactive	Canada	100%
Subsidiary 2 - Zencig Corp. ("Zencig")	Inactive	USA	70%

3.4 Functional and presentation currency:

The consolidated financial statements are presented in Canadian dollars. The functional currency of Cerro de Pasco Resources Inc. and the Subsidiary 1 is the Canadian dollars. The functional currency of Cerro de Pasco Resources Sucursal del Perú and the Subsidiary 2 is the US dollars.

3.5 Use of estimates and judgements:

The preparation of the condensed interim consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying the accounting policies of the Company in the preparation of these condensed interim consolidated financial statements and key assumptions related to these estimation uncertainties are the same as the ones listed and described in Note 3.5 of the annual audited consolidated financial statements of the Company as at December 31, 2018.

4. Significant accounting policies:

These condensed interim consolidated financial statements have been prepared following the same accounting policies used in Note 5 of the audited financial statements for the year ended December 31, 2018.

4. Significant accounting policies (continued):

4.1 Adoption of new accounting standard:

The following new standard has been applied in preparing the condensed interim financial statements as at September 30, 2019.

(i) IFRS 16 - Leases:

On January 1, 2019, the Company adopted IFRS 16 which replaces IAS 17 Leases and related interpretations. The core principle is that a lessee recognizes assets and liabilities for all leases with a lease term of more than 12 months. A lessee is required to recognize a right of use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Assets and liabilities arising from a lease are initially measured on a present value basis. The measurement includes non-cancellable lease payments (including inflation-linked payments), and includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. The new standard is intended to provide a faithful representation of leasing transactions, in particular those that do not currently require the lessees to recognize an asset and liability arising from an operating lease. IFRS 16 is effective for annual periods beginning on January 1, 2019, with early adoption permitted for entities that would also apply IFRS 15 Revenue from Contracts with Customers. The adoption of this new standard did not have significant impact on the Company's financial statements.

4.2 New standards and interpretations that have not yet been adopted:

Since the issuance of the Company's audited consolidated financial statements for the year ended December 31, 2018, the IASB and IFRIC have issued no additional new and revised standards and interpretations which are applicable to the Company.

5. Cash and cash equivalents:

6. Mining properties (continued):

Quiulacocha Tailings and Excelsior Stockpile:

CDPR's main asset is a 100% interest in the El Metalurgista Concession (where the so-called Quiulacocha Tailings and Excelsior Stockpile are located), located in Peru (the "Property"). The Property is known as the Excelsior and consists of the Excelsior Mineral Pile ("EMP") and Quiulacocha Tailings ("QT") forming residues generated by the processing of the Cerro de Pasco Mine Pb-Zn-Ag-Cu ore located 310 km from Lima, in east-central Peru.

The EMP occupies an area of 94 ha and contains 26,400,000 m3 of fragmentary rocks forming terraces composed of sulfide-rich rocks, sericitized volcanic and carbonate (dolomitic) rocks. Metal-bearing minerals consist of sphalerite (Zn), tennantite (Cu), cerussite (Pb), enargite (Cu) and galena (Pb, Ag-rich).

The property is subject to a 2.0% NSR on production. The total 2% may be purchased by the Company as per the following deadlines and payments:

On April 27, 2018, the Company concluded a private placement by issuing 5,201,667 units. Each unit consists of one common share and one-half warrant for a total of 5,201,667 common shares and 2,600,832 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.25 until April 27, 2019. The Company may, at its option, accelerate the expiry date under certain conditions.

In May and June 2018, Cerro de Pasco Resources S.A. issued common shares for a total value of \$1,310,334 in settlement of accounts payable with shareholders. These settlements resulted in no loss or gain on settlement of accounts payable, in comprehensive loss.

On November 5, 2018, the Company issued to a service provider 200,000 common shares valued at \$48,000 for business development consultancy.

On December 7, 2018, the Company issued to a service provider 200,000 common shares valued at \$64,000 for business development consultancy.

On December 17, 2018, the Company concluded a private placement by issuing 702,000 units at a price of \$0.25 per unit for net proceeds of \$174,481 after deducting share issuance costs of \$1,019. No commission was paid in connection with this private placement. Each unit consists of one common share and one warrant for a total of 702,000 common shares and 702,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.40 until December 17, 2020. The Company may, at its option, accelerate the expiry date under certain conditions. These warrants have been recorded at a value of \$46,896 based on the Black-Scholes option pricing model using the assumptions described below (Note 15 (c)). As part of this private placement, the Company also issued a total of 14,000 broker warrants. Each broker warrant entitles its holder to purchase one common share at \$0.40 per share until December 17, 2020. These warrants have been recorded at a value of \$1,627 based on the Black-Scholes option pricing model using the assumptions described below (Note 15 (c)). As a result, the broker warrants were recorded under warrants and as share issuance costs as a reduction of share capital in the statement of changes in equity. Share issuance costs amounted to \$2,646 including the fair value of the broker warrants of \$1,627.

9. Share-based compensation:

(a) Share option plan:

The Company has a stock option plan whereby the Board of Directors, may grant to directors, officers or consultants of the Company, options to acquire common shares. The Board of Directors has the authority to determine the terms and conditions of the grant of options. The Board of Directors approved a "Rolling" stock option plan reserving a maximum of 10% of the shares of the Company at the time of the stock option grant, with a vesting period allowed of zero up to eighteen months, when the grant of option is made at market price, for the benefit of its directors, officers, employees and consultants. The Plan provides that no single person may hold options representing more than 5% of the outstanding common shares. The number of stock options granted to a beneficiary and the vesting period are determined by the Board of Directors.

The exercise price of any option granted under the Plan is fixed by the Board of Directors at the time of the grant and cannot be less than the market price per common share the day before the grant. The term of an option will not exceed five years from the date of grant. Options are not transferable and can be exercised while the beneficiary remains a director, an officer, an employee or consultant of the Company or up to twelve months after the beneficiary has left.

There were no share options granted during the years ended December 31, 2018.

12. Related party transactions:

Related parties include the Company's joint key management personnel. Unless otherwise stated, balances are usually settled in cash. Key management includes directors and senior executives. The remuneration of key management personnel includes the following expenses:

	Three-month period ended		Nine-month period ended	
	September 30 2019	September 30 2018	September 30 2019	September 30 2018

(1) As at September 30, 2019, prepaid expenses include an amount of \$70,188 (\$13,642 as at December 31, 2018) as advances on fees to the Executive Chairman of the Board.

These transactions, entered into the normal course of operations, are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Unless otherwise stated, none of the transactions incorporated special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

13. Financial assets and liabilities:

The carrying amount and fair value of financial instruments presented in the consolidated statements of financial position related to the following classes of assets and liabilities:

	September 30 2019		December 31 2018	
	Carrying amount \$	Fair value \$	Carrying amount \$	Fair value \$
Financial assets				
Amortized cost				
Cash and cash equivalents	1,147,065	1,147,065	1,364,140	1,364,140
Other receivables (excluding sales tax receivable)	210,602	210,602	152,042	152,042
	1,357,667	1,357,667	1,516,182	1,516,182
Financial liabilities				
Amortized cost				
Trade accounts payable and other liabilities	286,272	286,272	557,836	557,836
	286,272	286,272	557,836	557,836

The fair value of cash and cash equivalents, other receivables and trade accounts payable and other liabilities is comparable to its carrying amount given the short period to maturity, i.e. the time value of money is not significant.

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (that is, derived from prices).
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The techniques and evaluation methods used to measure fair value were not changed compared to previous years.

14. Capital management policies and procedures:

The Company considers the items included in equity and long term loan as capital components.

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern;
- to increase the value of the assets of the business; and
- to provide an adequate return to shareholders of the Company.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flow, either with partners or by the Company's own means.

The Company monitors capital on the basis of the carrying amount of equity. Capital for the reporting periods are presented in the statement of changes in equity.

The Company is not exposed to any externally imposed capital requirements.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its exploration and evaluation activities or may slow its activities until conditions improve. No changes were made in the objectives, policies and processes for managing capital during the reporting periods.

	September 30 2019	December 31 2018
	\$	\$
Obligation under capital lease	3,251	4,894
Equity	2,594,318	2,391,302
	2,597,569	2,396,196

15. Financial instrument risks:

The Company is exposed to various risks in relation to financial instruments. The main types of risks the Company is exposed to are credit risk, liquidity risk and foreign currency risk.

The Company manages risks in close cooperation with the board of directors. The Company focuses on actively securing short- to medium-term cash flows by minimizing the exposure to financial markets.

(a) Credit risk:

Credit risk is the risk that the other party to a financial instrument fails to honour one of its obligations and, therefore, causes the Company to incur a financial loss.

The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets at the reporting date.

Credit risk of other receivables and cash and cash equivalents is considered negligible, since the counterparty which holds the cash and cash equivalents is a reputable bank with excellent external credit rating and the amount of other receivables is guaranteed.

None of the Company's financial assets are secured by collateral or other credit enhancements.

(b) Liquidity risk:

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Three-month and nine-month periods ended September 30, 2019 and 2018

(in Canadian dollars)

15. Financial instrument risks (continued):

(b) Liquidity risk(continued):

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount.

During the nine-month period ended September 30, 2019 and the year ended December 31, 2018, the Company has financed working capital needs through private financings consisting of issuance of shares (before October 5, 2018 and for 2017, Genius Properties Ltd. has financed Cerro de Pasco Resources S.A. through private financings consisting of issuance of shares and long-term debt consisting of an obligation under capital lease). Management estimates that the cash and cash equivalents as at September 30, 2019 will not be sufficient to meet the Company's needs for cash during the coming year.

Contractual maturities of financial liabilities (including capital and interest) are as follows:

	September 30 2019			
	Less than 1 year	1-5 years	More than 5 years	Total
Trade accounts payable and other liabilities	\$ 286,272	\$ -	\$ -	\$ 286,272

	December 31 2018			
	Less than 1 year	1-5 years	More than 5 years	Total
Trade accounts payable and other liabilities	\$ 557,836	\$ -	\$ -	\$ 557,836

(c) Foreign currency risk:

The Company operates in Canada and Peru. The functional currency of the parent company is the Canadian dollar. The assets, liabilities, revenues and expenses of Peru operations are denominated in USD. The Company has purchase contracts denominated in US dollars ("USD"). The Company is exposed to foreign exchange risks arising from the fluctuation of exchange rates between US dollar and the Canadian dollar. The Company does not enter into arrangements to hedge its foreign exchange risk.

As at September 30, 2019 and December 31, 2018, the Company is exposed to currency risk through fluctuations in the foreign exchange rate with respect to the following financial asset:

	September 30 2019	December 31 2018
Financial instruments denominated in SOLES	\$	\$
Cash and cash equivalents	185,676	258,825
Other receivables	79,051	71,230
Trade accounts payable and other liabilities	(67,806)	(330,982)
Net exposure	196,921	(927)

Based on the above net exposure as at September 30, 2019 and assuming all other variables remain constant, a 10% depreciation or appreciation of the Canadian dollar against SOLES would result in a change of \$19,692 (\$93 as at December 31, 2018) in the Company's comprehensive loss and changes in equity.

The Company's operating lease agreement do not contain any contingent rent clauses. None of the operating lease agreement contain renewal or purchase options on escalation clauses or any restrictions regarding dividends, further leasing or additional debt. No sublease payments or contingent rent payment were made or received. No sublease income is expected as all assets held under lease agreements are used exclusively by the Company.

16.2 Contingency:

- (i) On October 5, 2018, before the reverse takeover (see Note 6 of the audited financial statements for the year ended December 31, 2018), Genius Properties Ltd. completed an Asset Transfer Agreement pursuant to which the Company transferred to Genius Metals Inc. ("Genius Metals") the ownership of all mining rights and titles, a part of its trade accounts payable and other liabilities and the other liability related to flow-through shares estimated at \$29,781. In consideration for such transfer, Genius Metals issued to the Company 9,797,970 Genius Metals common shares for a consideration of \$3,463,660. The transfer was recorded at the carrying amount of the assets and liabilities transferred. Notwithstanding that the liabilities related to the flow-through shares were transferred to Genius Metals, the Company retains the ultimate responsibility for the tax liability related to these financings. Genius Metals has indemnified the Company for any such liability.

17. Subsequent events:

On November 22, 2019, the Company received 718,736 common shares of Genius Metals Inc., at a fair value of \$0.20 per share for a total value of \$143,747 in settlement of other receivables in the amount of \$179,684.

On November 27, 2019, the Company is entered into a share purchase agreement (the "Agreement") with Volcan Compañía Minera S.A.A. (BVL:VOLCABC1) and its subsidiaries, whereby CDPR will acquire all of the issued shares of Oxidos de Pasco S.A.C., Empresa Administradora de Cerro S.A.C and Remediadora Ambiental S.A.C. The arm's length transaction will provide CDPR ownership and operation of all mining and processing assets in Cerro de Pasco, Central Peru.

Under the terms of the Agreement, 100% of the Target Companies' issued and outstanding common shares will be acquired by CDPR for a total cash consideration of USD 30 million, a variable consideration and a net smelter royalty over the concessions.
